■ BUSINESS CONSULTING

## PROJECT MANAGEMENT

### AN ADAPTABLE CONSULTING SERVICE

We allow clients to hire as many project managers as needed to see their projects through. Project Management services ensure that projects are completed efficiently to meet customer expectations.

## RISK MANAGEMENT

### IDENTIFYING, ASSESSING AND CONTROLLING THREATS

We identify the organization's risk after analyzing its internal and external factors influencing organization's day-to-day operations and propose long-term and short-term mitigation plans.

## IT INFRASTRUCTURE EVALUATION

### INFORMATION TECHNOLOGY IMPLEMENTATION EVALUATION

We evaluate and determine the degree to which an IT implementation facilitates the work of an organization to meet its goal.

“

I have interacted with Agate Business Consulting both as a client and as a partner in technology. As a client, the Agate approach is that of a true business partnership. Agate has supported our business over the past two years by helping us with business decisions at every turning point. In Agate, I feel I am dealing with an integrated Management Consultancy. It is a company that has great people.

As a partner, I still felt the professional approach and the consistency.

We hope to continue to work with Agate to support the compliant operations with quality as well as for other future projects.

Jayakrishnan Thoppil, Director

## An Invaluable Partner in Software Testing Services

I am delighted to share my experience working with Agate Business Consulting on behalf of Omnyk Inc. Over the past two plus years, Agate has been our trusted partner, providing Software Testing Services for our Android, iOS, and Cloud Services in our Omnytraq solutions.

Agate's team has consistently displayed a remarkable level of professionalism, quality, responsiveness, and outstanding value throughout our partnership. They possess a deep understanding of our specific software testing requirements, consistently delivering results that meet industry standards.

During challenging times, Agate's dedication to our projects shone through. As a client, their professionalism and guidance were instrumental in helping us navigate the complexities of software testing.

Jicksen Joy, Director  
**Omnyk Inc.**

Agate Business Consulting has been a valuable asset to our company, G J Infotech.

Their expertise in identifying the root causes of our pain areas in management, marketing, and support and proposing over 70 improvement items has been invaluable. The study and its results were effectively communicated to our management team, and Hari has been instrumental in guiding us in the right direction for implementation.

Thanks to Agate's efforts, we have been able to avoid additional cost, time delays, and quality issues. We highly recommend their services to any organization looking to streamline their operations and achieve maximum efficiency.

Jison P J, Director  
**G J Infotech**

“

We want to express our appreciation for Agate's guidance and assistance in helping us setting up an online presence, carry out online marketing, developing a new product (Herb's Coffee) marketing strategies, and improve the day-to-day working of our hospital. Success is only possible with an in-depth understanding of all our requirements and their complete implementation.

I can confidently recommend their high-quality, professional work. If you're working with them, I can say for sure that you are in great safe hands.

Dr. Vishnu Sethubabu, Director  
**Kaalimadom Ayurvedics**

“

We have been getting assistance, guidance and administrative reforms measures from Agate Business Consulting since February 2020. First of all, they completed an extensive analysis of our school covering all functional areas such as operations, faculty, financials, IT infrastructure, process and management.

After the analysis, the Agate consultant presented an improvement plan with priorities, financial dependencies, and an accountability matrix. The implementation of the improvement plan started after approval from the management.

The consultant was passionate, has a comprehensive understanding of our school administration and functioning, with remarkable Quality Assurance knowledge and was contagious. His suggestions and contributions were invaluable. He has instilled in all of us here to be conscious of the real value of quality management and a commitment to creating the best system we can.

I can confidently recommend Agate Business Consulting as a solid and reliable business partner and experts in their field.

U N Prakash, Principal,  
**Saraswathy Vidyabhavan Central School**

“

Thank you very much to Hari and his team for the thorough work delivered during this turbulent time. As originally discussed on the first day we met, this entire process was new to us. However, your professionalism, guidance, and commitment were well worth the investment.

The agate team has studied all functional areas of our institution and identify improvement areas in functional areas. The best part is that they proposed simple and inexpensive solutions for most of them. We revamped a few of our processes which will be a great asset to the institution. Agate has guided and coached us on best practices and also assisted us in identifying our core values during this assignment. The agate team's suggestions and contributions were extremely helpful.

Thank you for completing our assignment on time. We look forward to working with you on future projects. I would have no hesitation to recommend Agate Business Consulting to my business friends and partners.

Sharlet T J, Management Trustee
